

Table of Contents

<u>Section Topic</u>	<u>Slides</u>	<u>Tab</u>
Course Contents	1-3.....	1
Section 1 – Identifying Performance Problems	S01: 1-38.....	2
▪ Types of Performance Problems		
▪ Factors Affecting Performance		
▪ Measuring Performance		
▪ Analyzing Performance Problems		
Section 2 – DBMS Server Tuning	S02: 1-45.....	3
▪ DBMS Server Tuning and Parameters		
▪ DBMS Log Output		
▪ DMF Cache Tuning		
▪ DM420 Trace Point		
Section 3 – Tuning the Logging System	S03: 1-4.....	4
▪ Logging System Overview		
▪ Logging System Parameters		
▪ Logging System Information		
▪ Common Logging System Problems		
Section 4 – Tuning the Locking System	S04: 1-7.....	5
▪ Tools		
▪ Locking Counters (Metrics)		
▪ Common Locking System Problems		
Exercise 1 – DMF Cache and Logging Tuning	EX1: 1-3.....	6
Section 5 – Query Optimization and Statistics	S05: 1-34.....	7
Section 6 –QEPs and QE90 Tracing	S06: 1-35.....	8
▪ Understanding QEPs		
▪ Query Flattening		
▪ QE90 Tracing		
Exercise 2 – Optimization Statistics	EX2: 1-3.....	9
Section 7 – Query Performance Tuning	S07: 1-60.....	10
▪ Measuring Response Times		
▪ Reducing I/O		
▪ Using Keys and Indexes		
▪ Inaccurate Optimizer Estimates		
▪ TID Joins		
▪ Functions		
▪ Sub-Selects and Outer Joins		
▪ Session Temporary Tables		
Section 8 – Table Performance	S08: 1-47.....	11
▪ Storage Structures		
▪ Overflow Management		
▪ Page Priorities		
▪ Choosing Physical Keys		
▪ Secondary Indexes		
▪ Larger Page Sizes		
▪ Compression		
▪ Physical Table Placement		
▪ Space Management		

Exercise 3 – Overflow	EX3: 1.....	12
Section 9 – Transaction Performance	S09: 1-14.....	13
▪ Locking Granularity		
▪ Managing Escalation		
▪ Avoiding Deadlocks		
Section 10 – Other Performance Issues	S10: 1-20.....	14
▪ Rules and Procedures		
▪ Database Constraints		
▪ Handling Bottleneck Tables		
Exercise 4 – DB Procedure Locking	EX4: 1-3.....	15
